Comcast Cable,

Our Tenant, \_\_\_\_\_ at the following address,

\_\_\_\_\_ has requested permission to have a cable installed on the premises. We give our permission for this installation following these considerations:

1. Do not wrap the building or run cables on the walls or ceiling.
2. Install the cable in a professional manner.
3. We grant permission to drill holes or access the attic or crawl space to run cable as needed.

I have read the above letter of permission for the installation of a cable and I understand the terms. By signing below I agree to present this letter to the Cable Installer and to contact the Management with any questions regarding these considerations prior to the installation.
